Program Description

We work in over 15 kindergartens in Ubud and its surrounding villages. Moreover, we have our own self-run kindergarten for 4-5 year olds, who can attend it for free. The kids are right at the start of their school careers and the chance to start learning English since such an early age will prove invaluable for them further on.

Like in kindergartens throughout the world, the teaching is informal as the children will want to play with you more than to be 'taught'. However, simply by getting them enthused about coming to school, giving them some very basic English phrases such as simple greetings, you may well have sown the seeds of a lifelong learning habit.

The children will all be excited to see you and exceptionally welcoming, partly due to the natural and genuine friendliness of the Balinese, but also due to the fact that you will be one of the few foreigners they have met!

Please note that the Kindergarten Project will be closed during school break (June, July, August and December).
