📍 India - Goa

Get your hands dirty and help the underprivileged communities and their schools in India with construction projects!

The main construction site of this project is located at the migratory children kindergarten and at the local slum school, but the work can also take place elsewhere in the area where development construction assistance is needed. While assisting the local community with their developments, you will gain valuable experiences as well as cultural exchanges with Indian people.

 Towels	No
 Mosquito protection	Yes
 Fan	Yes
 Air conditioning	No

(1) Three meals per day during weekdays and two per day on weekends

(3) At an additional fee

(2) Water, Coffee, Tea, and Milk

Program Description

On this project, you will get your hands dirty with construction projects. Our main focus when constructing is working at the slum and migratory children schools allocated to the poor. Despite the previous efforts, the work here is far from done and we continue to renovate pathways, toilets, walls, etc. Moreover, those with artistic talents can help decorate the walls by creating images and sketches of their home countries and cultures. We have the feeling that this will be a nice way of reflecting the hard and good work that has been done by our participants over the past years.

Other construction efforts might be carried out in the local village (renovating and building houses and sanitation facilities) or working on construction projects at the local hospitals - this very much depends on the needs of any particular time and so our participants will be using their construction skills where they are most needed!

Program Duration & Availability

Min duration (weeks): 1

Aims & Objectives

This project aims to improve the quality of life for underprivileged citizens in and around Goa. The construction projects greatly improve the environment of the poverty-stricken people within this area.

Schedule

Monday to Friday

You will begin with a meeting with the coordinator, discussing what is required during your stay at the project. There is a focus on light construction work and you will be expected to help paint the school buildings, make tables & chairs, construct and renovate the playground, make pathways, build toilets, repair the school wall, help build the new classrooms and gardening. Construction and renovation work is available in more places when required in the local area.

This project is only done in the mornings, if you wish you continue this program in the afternoons, you are more than welcome. If you choose to do any other project, then you can participate only in slum outreach project or at the TGL School.

This schedule can be changed and/or amended depending on weather conditions, local conditions and unforeseen circumstances.

Please note: the combination has to be informed to your local coordinator during the introduction week itself, and only if available you can choose a combination, you will not be able to change it until the end of your program

Starting Dates

During 2017

This program starts every week.

During 2018

This program starts every week.
