## Program Description

---

The kids at the kindergarten in Senggigi are right at the start of their school careers, and the chance to start learning English since such an early age will prove invaluable for them further on. Like in kindergartens throughout the world, the teaching is informal as the children will want to play with you more than be 'taught'. However, simply by getting them enthused about coming to school, giving them some very basic English phrases such as simple greetings, you may well have sown the seeds of a lifelong learning habit. The children will all be excited to see you and exceptionally welcoming, partly due to the natural and genuine friendliness of the people of Lombok but also due to the fact that you will be one of the few foreigners they have met!

Please refer the document [Holidays in Indonesia](#) to find out the days in which the project is shut.
